SIMPLE GRADE CLASSIFIER

```java
public class GradeClassifier {
    public static void main(String[] args) {

        int score = 85;

        if (score >= 60) {
            System.out.println("PASSED");
        } else {
            System.out.println("FAILED");
        }
    }
}
```

```
PASSED

[Program finished]
```

```java
public class GradeClassifier {
    public static void main(String[] args) {
